

STAYING SAFE

The South Australian Council on Intellectual Disability (SACID) run an information session about how people can stay safe in their home, service, workplace and community.

This session is for **adults** (18+ years) with intellectual disability.

We will:

- Talk about 'Staying Safe'
- Watch videos about abuse
- Give you information on different types of abuse
- Tell you about services you can contact if you are feeling unsafe

We also encourage staff, parents and supporters to attend. Staff, parents and supporters need to know this information too and can help the conversation to continue after the session.

If you would like to book a Staying Safe workshop, please contact SACID. If you have a group we can come to you.

Phone: 08 8352 4416
